2. Perygon landing page

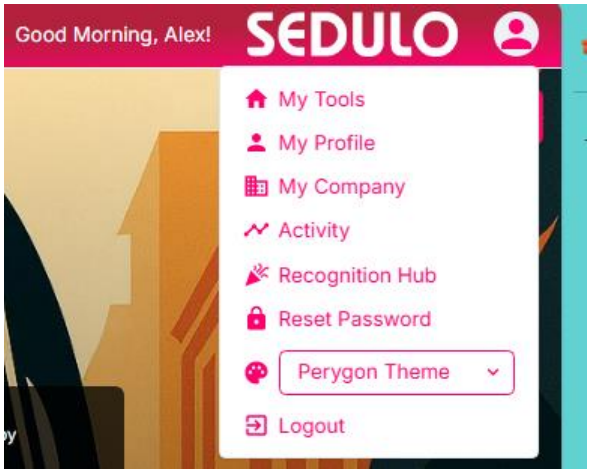
Once you have logged into Perygon you will be taken to the landing page. Here all your tools and settings can be accessed. As seen below, you have your 3 tools (Happiness, eNPS, and Recognition Hub), you can cycle through these by clicking the tool logo, or the arrows.

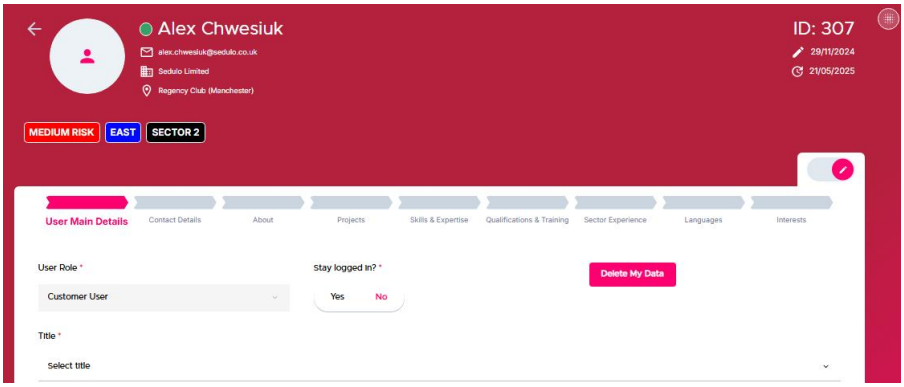
In the top right corner, you can click your profile picture and access the setting menu. Some of the key features are:

‘My Tools’ returns you to the landing page.

‘Reset Password’ takes you through the password reset process

‘Perygon Theme’ dropdown to change the colours and theme of the entire app.



‘My Profile’ allows you to view and edit your details at any time.


This includes an easy to use one click ‘delete my data’ button.
